The Company provides you with an itemised breakdown of costs and charges in your personal account on our platform where required by Applicable Laws and Regulations.

The Company does not charge any specific fees for entering the Agreement and opening the Account, as well as any exit fees for closing the Account and termination of the Agreement.

5.1.2 Alteration of Charges

The Company reserves the right to modify, from time to time the size, the amounts and the percentage rates of its fees providing the Client with a respective notification of such charges accordingly. Any alteration to charges will be notified to you in advance of the relevant change via our Website or the mobile app. You need to monitor and/or to regularly check the fees and charges on our Website or in the mobile app, taking into account that the Company is under no obligation to make personal notifications of the alterations to the charges.

Your continued use of our platform shall be considered as your consent and agreement to such changes and shall be governed by those Terms and Conditions, as modified. If you do not wish to be bound by those changes you should cease to use our platform and inform us immediately.

The Company will endeavour to notify clients via e-mail communication of any significant alterations of charges for the Client's convenience.

5.2 Spreads

The Company will quote to clients two prices, the "ASK" at which clients can buy a respective CFD, and the "BID" at which clients can sell a respective CFD. The difference between the ASK and the BID prices is called the "SPREAD." The SPREAD is the only trading cost that the user has to pay as a trading fee for the Electronic Services. No other charges or commissions are paid by the clients to enter or exit a trade. The Company's spreads are quoted on both the Online Trading Platform and on the Website. The spreads are dynamic due to the uncertain nature of the markets and are set at the absolute discretion of the Company. Different instruments have different spreads. The spread may factor in:

- Liquidity of the product's underlying market
- General market and economic conditions
- The Company's risk appetite
- The Company's costs and profit margin
- The greater competitive landscape

The Company uses a proprietary model to create its pricing. A unique, internally developed pricing algorithm sources prices from many liquidity providers, assuring that the Company provides to its clients the best price it can.

5.3 No Commissions or Fees for Depositing or Withdrawal

5.3.1 No fees are charged by the Company for deposits to or withdrawals from the Account, save where expressly stated otherwise in these Terms. Such fees, however, may still be charged by a bank, credit card provider, processing system, payment services provider, payment system, and/or third-party provider used by the Client in its sole discretion in connection with deposits to or withdrawals from the Client's Account. The Company shall not be liable for such fees.

5.3.2 Payment and deposit (withdrawal) methods used for deposits to or withdrawals from your Account may carry (be subject to) fees and costs that the Company may at its sole and exclusive discretion decide to absorb (bear). However, in cases when the Client engages in deposit to and withdrawal from the Client's Account without entering into any trading activity (or conducting minimal trading activity), the Company may charge the Client for recovery any such fees and costs connected to the specific payment and/or deposit (withdrawal) method whether at the depositing or withdrawal stage, or at both stages, and whether retroactively or not.

5.4 No Telecommunication Fees are Charged or Covered

No additional costs are charged by the Company in relation to the telecommunication media utilised by the Client, if any, and the Company is not responsible for compensating any fees incurred in relation to the use of telecommunication media by the Client. It is the Client's sole responsibility to settle any fees with the respective telecommunication provider.

5.5 Payment Methods

Clients can deposit funds into their Account at any time. The following payment and deposit (withdrawal) methods can be used: bank cards, bank transfers, payments via electronic or online payment solutions, and other deposit (withdrawal) methods available from time to time on CAPITAL.COM Online Trading Platform, including the use of alternative deposit (withdrawal) methods with third-party providers. The payment and deposit (withdrawal) methods are being provided on an "as is" basis.

The Company reserves the right to amend the list of payment and deposit (withdrawal) methods without notification of its Clients. The Clients can find the list of the available payment and deposit (withdrawal) methods on the CAPITAL.COM Online Trading Platform in real time.

The Client understands and agrees that irrespective of the Client's choice of specific payment and/or deposit (withdrawal) method, including using the alternative deposit (withdrawal) methods with third-party providers, the Company settles deposits and processes withdrawals **exclusively in fiat currencies**, and the funds accounting on the Client's Account can be performed exclusively in **fiat currencies**, namely, U.S. Dollars, Euros, Pounds sterling, and other Base Currencies available from time to time on CAPITAL.COM Online Trading Platform in accordance with these Terms.

The Client understands and agrees that for each payment and/or deposit (withdrawal) method, the Company reserves the right to apply and/or impose certain limitations and restrictions subject to region, and/or currency, and/or amount of payment/deposit (withdrawal), and/or other circumstances/conditions. Banks, processing systems, payment systems, credit card providers, any other payment providers, and/or third-party providers used by the Client in its sole discretion in connection with deposits to or

withdrawals from the Client's Account (altogether "**third-party providers**") may establish limits and/or fees on all operations performed by such third-party providers, at their sole discretion, independently of the Company's will or intentions. The Client understands and agrees that the Company shall not be responsible for the timing of the operations conducted by any such third-party providers and for the circumstances that caused any technical failure during any such operations if they arose through no fault or beyond the control of the Company.

The Client understands and agrees that all fees, commissions, and other costs associated with the implementation and/or use by the Client of the chosen (at its sole discretion) payment and/or deposit (withdrawal) method shall be paid at the expense of the Client unless the Company wishes to charge or waive part or all of such fees, commissions and/or other costs to its expenses at its sole and exclusive discretion.

The Client understands and agrees that the Company shall not be liable to the Client and shall not be responsible for any losses, costs, claims, damages, or expenses, whether reasonably foreseeable or not, as a result of the acts, omissions, or negligence of any third-party provider used by the Client. The Client understands and agrees that the Company shall not be liable to the Client and shall not be responsible for any delays, technical unavailability, or errors, whether reasonably foreseeable or not, as a result of the acts, omissions, or negligence of any third-party provider used by the Client.

Depositing third-party funds into the Client's Account, as well as bank deposits from third parties to the Client's Account, and processing any withdrawals to third parties will not be accepted, as specified in Clause 5.11 "No Third-Party Payments" of these Terms.

5.6 Minimum Deposits

The minimum amount of funds deposited by the Client is set by the Company and depends on the chosen currency and payment and deposit (withdrawal) methods, as specified in Clause 5.5 "Payment Methods" of these Terms. The minimum amount of deposit is displayed to the Client on the CAPITAL.COM Online Trading Platform during the depositing process.

The Client shall at any time be entitled to declare the return of part or all of the funds on their Account, by sending the Company the request to withdraw the funds from the Account. The amount of funds available for withdrawal shall be calculated as follows:

- If there are no open positions in the Client's Account, the amount of funds available for withdrawal shall be equal to the amount of funds in the Client's Account;
- If there are open positions in the Client's Account, the calculation of funds available for withdrawal shall be performed automatically in real-time, taking into consideration the amount of Margin required to hold open positions.

The Company, as well as third-party providers chosen by the Client in its sole discretion, are entitled to set up the limits on the minimum and maximum amount of funds available for withdrawal at its own discretion. The Company has the right to reject the Client's request for funds withdrawal if it does not meet these conditions, or the Company has reason to believe that the Client has violated any of the provisions of this Agreement.

The Company processes all fund withdrawals within up to five (5) business days, unless alternative terms are set by third-party providers associated with the payment or deposit (withdrawal) methods chosen by the Client. This period does not include the time it takes for the third-party provider to process the operations performed by such third-party provider. In exceptional cases (such as suspicion of the doubtful nature of the operation, at the time of fixing technical failures, etc.), the Company reserves the right to extend this period.

5.7 Prepaid Cards

Anonymous prepaid cards involve a higher risk for money laundering and terrorist financing activities. As such, the Company has established procedures to mitigate risks arising from anonymous prepaid cards. In particular, the Company shall not accept deposits from anonymous prepaid cards issued outside the European Union. In this respect, when the Company identifies such a deposit method, the deposited funds are immediately returned to the client.

5.8 Conversion into the Base Currency

Investing in financial instruments with an underlying asset(s) in a currency other than your Base Currency entails a currency risk as the financial instrument is settled in a currency other than your Base Currency. Hence, the value of your return may be affected by its conversion into the base currency. Currency risk is not limited to conversions within the Online Trading Platform but extends to deposits or withdrawals where currency conversion is required, as well as for the transfers between the Client's Accounts or between the Client's Sub-Accounts denominated in the different Base Currencies, when this is available for the Client on the Online Trading Platform. The conversion rate is not within the control of the Company, and therefore, the Company shall not be liable for differences resulting from unfavourable conversion rates. For any calculation (unless expressly stated otherwise), we convert amounts denominated in any other currency into the Base Currency at the prevailing rate at the time of the calculation, as shown on our platform.

However, the Company reserves the right to add a markup on the conversion rates in relation to the prevailing market conditions. For further information please refer to the Company's [website](#).

5.9 Additional Costs

You should be aware of the possibility that other taxes or costs may exist that are not paid through or imposed by us. It is your sole responsibility to bear these additional costs.

5.10 Ex-post Disclosure

The Company will provide the Clients with an itemised breakdown of costs and charges in the clients personal accounts available on our platform.

5.11 No Third-Party Payments

You can only deposit your own money to your Account. It should be easily traceable that the deposited funds come from you. In case of doubt, we reserve the right to ask for documentary confirmation of the ownership of the incoming funds.

No third-party payments will be accepted. If a third party deposit is identified or if in case of a doubt you are unable to provide the documentary proof of funds ownership – the deposited amount deducted by the amount of transaction fees will be returned to the same account from which it was received.

In case the card was fraudulently used, the legal owner of the card shall apply to the Company for reimbursement of the full fraudulently transferred amount including transaction fees.

The Company will not process any withdrawals made to third parties. Withdrawals will be made to the same account from which the incoming funds were originally received from. If it is not possible you are

obliged to provide us with the documentary proof of ownership of the account to which you are requesting withdrawal.

5.12 Overnight Premiums (Swaps)

If you hold a position open overnight, an overnight premium (swap) is subtracted from/credited to your Account. The amount of the overnight premium (swap) is specified for each instrument on our [Website](#) and the mobile app. Any alteration of the overnight premium (swap) is subject to the rules as defined in Clause 5.1.2.

5.13 Inactive Accounts

In case your Account(s) become inactive (as defined in Clause 8.19 of these Terms) for a period of more than a year, we may charge a fee ('inactivity fee') for maintaining your Account and our administrative costs. In that case the applicable charges will be disclosed on the relevant Website page (<https://capital.com/charges-and-fees>). Subject to Clauses 5.1.1, 5.1.2, it is your responsibility to monitor and/or to regularly check the relevant charges (if any) and the size of such charges.

You should note that such a cost as described here in above may continue to apply on a monthly basis thereafter if no action is taken by you. If you maintain more than one Account, when it is permitted by the Company, this fee will apply to all Accounts. It will be your responsibility to monitor the status of your Account(s) and we may not send any notification to you prior to charging the above fees.

5.14 Incentives to Retail Clients

Pursuant to Article 30 of the Rules, except as a rebate of trading expenses, the Company shall not directly or indirectly provide a Retail Client with any incentive, whether monetary or non-monetary, when marketing, distributing or selling a CFD without the consent of the Commission. For the purposes of this paragraph, information and research tools regarding CFDs are not considered to be incentives.

5.15 Guaranteed Stop Loss Order Fee (GSL Fee)

A fee charged when the Guaranteed Stop Loss Order is triggered and executed. The fee is charged in the form of an extra spread and is expressed in percentage. The percentage is displayed in the deal ticket when placing the Guaranteed Stop Loss Order on the CAPITAL.COM Online Trading Platform. The GSL Fee is calculated by the following formula:

$$GSL\ Fee = GSL\ Premium * Position\ Open\ Price * Quantity$$

The amount of fee charged is displayed in the trade history once the GSL is triggered and executed.

Note: MT4 and MT5 trading platforms do not offer GSL.

5.16 Dividends

Adjustments will be made to the Client's Accounts due to dividend payments related to the underlying equity. Such adjustment will be calculated by the Company based on the size of the dividend, the size of Client's position, taxation and whether it is a buy or a sell trade. If the Client holds a long position, the Company will adjust such Client's Account in Client's favour by the dividend multiplied by the long quantity as adjusted, if necessary, for taxation. If the Client holds a short position, the Company will adjust such Client's Account in Company's favour by the dividend multiplied by the short quantity as adjusted, if necessary, for taxation.

A dividend adjustment is applied when an underlying share passes its ex-dividend date (including the ex-date of any special dividend) in the underlying stock market.

However, as the Company is dependent upon notification from an external third party under no circumstances the Company shall be held liable for the consequences of any delayed adjustments.

5.17 Rebates to Clients

5.17.1 The Company might pay its Clients the rebates depending on their trading activities. For the Retail Clients, the Company may offer only rebates of trading expenses in compliance with the requirements of Article 30 of the Rules (Clause 5.14 of these Terms). The terms of payments of relevant rebates, so as any other applicable terms and conditions, may be subject to separate agreements and/or offerings, public or individual, which constitute an integral part of the Agreement and will be notified or available for the Client via the Website or the Online Trading Platform.

5.17.2 The payment of the rebates shall be contingent upon completion of compliance and risk checks carried out by the Company, and completed verification of the Client's Account.

For the avoidance of doubts, you acknowledge and accept and irrevocably waive any claims in regard to the Company's rights, at its sole discretion, to withhold, delay, or deny any rebate payment and shall not be obligated to make any rebate payment in the event that:

- a. The Client's Account is not fully verified by the designated rebate payment date;
- b. Failure to comply with the Company's verification requirements shall result in the forfeiture of any rebate payments otherwise due, and the Client waives any claim for such rebate payment;
- c. The Company has reason to suspect that the Client's activity is not in compliance with any Applicable Laws and Regulations;
- d. The Company has reason to suspect that the Client's activity is in breach of the Agreement or there is any breach of the Agreement;
- e. The Client has failed to provide any piece of information as may be requested by the Company or has provided misleading or incorrect information;
- f. The Company has figured out or has been notified by any third party of the alleged infringement of third parties' rights by the Client or there is any infringement of third parties' rules or rights applicable to Client while performing its obligations under the Agreement;
- g. The Client's Account has been closed or suspended pursuant to the terms of the Agreement, Applicable Laws and Regulations and any other relevant agreement entered into between the Client and the Company by the designated rebate payment date.

5.17.3 The Company reserves the right, at its own discretion, to withdraw or revoke the amounts of paid rebates from the Client's Account in case the Client does not make use of them within a determined period (withdrawal, using for trading) or in case of the client's inactivity in the Account. The conditions when the Company may exercise these rights, if not specified under these Terms, separate agreements and/or offerings (Clause 5.17.1), are communicated to the Client via the Online Trading Platform and/or other means in accordance with the Agreement.

Moreover, you must also deposit sufficient funds in your Account and your Client registration form, and all

accompanying documents, must be approved and verified by the Company.

7.1.2 The Company has established a Customer Acceptance Policy to perform accurate and complete risk assessments when accepting clients.

7.2 Customer verification

We are obliged under Applicable Laws and Regulations to verify the identity of our Clients. We have undertaken a risk-based approach to this process, which might require obtaining amongst other things, documentary proof of your identity or address. You agree that:

- (i) we may use additional online electronic verification tools for that purpose; and
- (ii) we may request (amongst other things) further details, documents, photo, liveness and/or video evidence from yourself. If you cannot satisfactorily prove your identity, you may not be able to open an Account with us or the Company may have to close an existing Account.

Furthermore we may, at our sole discretion any time during the business relationship, request additional documents including but not limited to the identification documents, proof of address, proof of funds, evidence of your source of funds and proof of funds and proof of ownership of the payment methods used by you.

7.3 Documents

7.3.1 When accepting a new Client, the Company is required to have satisfactory evidence of the Clients' identity, economic profile and financial background, in order to provide an effective service.

The Company requires all clients to enter into an agreement with the Company by completing the account opening documentation which is tailored to extracting this information.

In cases where the clients reside within countries where the addresses are identified only by reference to a P.O. Box, a declaration letter signed by an independent government representative or professional officer (such as post office, lawyer, accounts and notary public) confirming the Client's address is accepted.

7.3.1.2 For Legal Persons

PART 8. TRADING POLICIES AND PROCEDURES. ORDERS

8.1 Placing Orders

You may give us instructions in electronic form through the Website or the mobile app. You accept that all instructions should be placed manually and any use of an automated data entry system or tampering in any way with the Online Trading Platform is expressly and strictly prohibited, unless otherwise is specified in Clause 8.25.8 of these Terms.

In these Terms "instructions" and "orders" have the same meaning. When placing an Order, if it becomes pending, the funds required for its execution are blocked from the available funds available in the Client's Account (the blocked funds cannot be used for other Orders, until the pending ones are executed or cancelled). The Client shall be the sole trader on the Account, and all Sub-accounts, unless the Client has explicitly obtained prior consent from the Company. No third party is permitted to affect the trades on the behalf of the Client without prior notification to the Company. You acknowledge that by accepting these Terms, you remain the sole proprietor and trader on the account. Any such breach of the aforementioned may subject the Client's Account to the Enforcement Measures described in Clause 13.3 herein.

8.2 Types of Orders Accepted

8.2.1 An order is an offer to open or close a transaction if our price moves to, or beyond, a level specified by you. Our approach is primarily to place orders as a principal and not as an agent on your behalf; we are the sole counterparty to your trades and the sole execution venue for your orders. The CAPITAL.COM Online Trading Platform supports the following types of orders:

- a. A Market Order is an instruction to buy or sell a CFD in a specified size at the best available market price for that size, and it will be executed immediately at the best available market price

(the price might change before execution, especially with less liquid financial instruments); such Market Order allows us to execute your order at a price that is different than our quoted bid/ offer price at the time you place it. This order type does not allow any control over the price it will be filled at. Market Orders can be placed only during the trading hours of the underlying asset. Where there is insufficient liquidity available for the specified size, your Market Order will be partially filled while the remaining quantity will be cancelled by the system. A Market Order can take Profit/Stop Loss Orders attached.

- b. A Limit Order is an instruction which allows the Client to set a minimum price (for a sell order) or a maximum price (for a buy order). This gives you a control over the price at which the Limit Order is executed, however this Limit Order may never be executed (or filled). A Limit Order can be used to either open or close a position. When there is insufficient liquidity available for the specified price your Limit Order will be partially filled with the remaining quantity actively pending until it is fully filled or cancelled. Once a Limit Order is triggered it will be executed at a level that is the same or better than the level specified by you. Limit Orders can take Profit and Stop Loss orders attached.
- c. A Working order is a general term for opening either a Stop or Limit Order. This allows the Client to buy or sell a CFD once it meets the stop price predetermined by the Client (after the CFD hits the Client's stop price, the Stop Order becomes a Market Order and is executed at the best price available).
- d. A Stop Market Order is an instruction to execute a trade when a price level (the Stop Market Level) is reached that is equal to or worse than the current best price (a Stop Market Order). When the Stop Market level is reached, the Stop Market Order will trigger and a Market Order will be sent to execute the trade at the best price available at the time the Order is placed for the quantity you wish to buy or sell. Your execution price may be better or worse than the Stop Market Level you set depending on the liquidity available and the size of your Order. Stop Market Orders can be placed and/or cancelled anytime, even when the market is closed. In order to amend a Stop Market Order, you would need to cancel the existing one and place a new Stop Market Order provided the market conditions allow that. Stop Market Orders can be used to open or close a trade and can be Good For Day (GFD) or Good Til Cancelled (GTC). This means that for "GFD" Stop Market Orders any portion of the Stop Market Order which has not been executed during the trading day in which the Order was placed is automatically cancelled at the end of that trading day. It may be the case that your Stop Market Order could be partially executed if there is insufficient liquidity to cover all of your Order at the time your Stop Market Order is triggered. A "GTC" Stop Market Order would remain a working order until you choose to cancel it, if it is cancelled because you are on a margin call, or your Order is filled and becomes a position. Take Profit and Stop Loss Orders attached to Stop Market Orders will be set at a specified level away from the worst execution price received (e.g. 50 points away from the highest Offer price for a Long Market Order). Your Take Profit and Stop Loss Orders will not be set at a level relative to the volume weighted average opening price of your Order.
- e. A Take Profit is an order that can be attached to working orders, market orders or open positions, to close a position at a price that is better than the current price. This order type is primarily used to lock in profits from a position. If the market has moved to the opposite direction of a position, it is possible to set up a Take Profit at a price that is better than the current price but worse than the opening price. Thus, it is possible to limit losses with a Take Profit order. Where a Take Profit Order is attached to a working order it will be a contingent order that would become active once all or part of your opening order has been executed giving rise to a position being opened on your Account. The Take Profit Orders will be filled at the predefined price. If a Take Profit Order is partially executed because there is insufficient liquidity at the price you specified, the remaining part of your order will be active until your price level is reached again and more liquidity is available. A Take Profit Order will remain active until it is executed or removed, or the open position is closed.
- f. A Stop Loss is an order that can be attached to working orders, market orders or open positions,

to close a position at a price that is worse than the current price. This order type is primarily used to limit the potential losses you can incur from an open position. If the market has moved to the direction of a position, it is possible to set up a Stop Loss at a price that is worse than the current but better than the opening price. Thus, it is possible to lock profits with a Stop Loss order. If the Stop Loss level is reached, the Stop Loss Order is executed as a Market Order at the best price available for the quantity you wish to buy or sell. A Stop Loss Order will remain active until it is executed, or removed or the open position is closed. If a Stop Loss Order is partially executed because there is insufficient liquidity, the remaining part of your order will be active until your price level is reached again and more liquidity is available. We do not guarantee that a Stop Loss Order will be filled at the price specified.

- g. A Trailing Stop order is a specific type of Stop Loss that automatically follows your positions, provided the market moves in your favor. If the market moves against you, then the stop loss level does not move. A Trailing Stop order does not set the stop level at a certain price, but rather at a certain distance away from the current market price. It would be placed below the current market price if you are opening a long position on an asset, and above the current market price if you are opening a short position. A Trailing Stop is set at a percentage level or certain amount of points away from the market price; this distance is known as the trailing step - and the stop will move to maintain that distance from the current price. One of the largest benefits of a trailing stop is the flexibility that it offers you, as you don't have to manually move your stop if your position moves in your favour, and you want to adjust your exposure accordingly. If you leave a basic stop on an open position, which you don't then readjust if your trade is profitable, your position will only automatically close if it retraces back to where you originally placed your stop. Any profits that you could have taken from the position, had you closed it earlier, would be lost. Trailing Stops help to prevent this from happening, protecting the profits on a successful trade as well as minimising losses. When you are setting a Trailing Stop, you have to be careful not to set your trailing step too far away from the market price or too near to it. If you set it too far away, you are at risk of unnecessary losses, but if you set it too close to the market price, you might be closed out before your trade has had the chance to make a profit.
- h. A Guaranteed Stop Loss Order is an order that can be attached to working orders, market orders or open positions, to close a position at an exact price determined by you that is worse than the current price. This order type is used to limit the losses you can incur from an open position. If the market has moved to the direction of a position, it is possible to set up a Guaranteed Stop Loss at a price that is worse than the current but better than the opening price. Thus, it is possible to lock profits with Guaranteed Stop Loss order. When accepting your Guaranteed Stop Loss Order we guarantee that when our bid or offer quote goes beyond the price specified by you, we will close your position at exactly the price specified. An open position can be closed at your initiative before reaching the Guaranteed Stop Loss Order level. As we guarantee your close out price, there is a fee charged when the Guaranteed Stop Loss Order is triggered and executed (see cl. 5.14.1. Guaranteed Stop Loss Order Fee (GSL Fee)).

8.2.2 Limit Orders and Stop Loss Orders for equity CFDs are executed based on the preceding ex dividend prices and if not fully executed before the occurrence of the forthcoming Corporate Event, entitling the Client to a dividend for the equity CFD position(s) he/ she currently holds, the Client's relevant CFD position(s) will be closed by the Company prior to that Corporate Event at the then prevailing market price. Similarly, the Company will ask the Client to close any affected pending Limit Orders and Stop Loss Orders before the forthcoming Corporate Event or will do so on its own.

8.2.3 Limit Orders and Stop Loss Orders applied to equity CFDs based on cum-dividend prices will be valid for the ex-dividend price (and vice versa) unless specifically cancelled by the client.

8.2.4 We may introduce new types of orders from time to time by posting a relevant alert and updating the current information on the Online Trading Platform.

8.2.5 We may introduce restrictions on a temporary basis regarding a certain type of Order or all Orders.

8.3 Terms of Acceptance for Orders

8.3.1 It is your sole responsibility to clearly indicate the terms of an order when entered, whether it is a Market Order, Limit Order, Take Profit, Stop Loss or any other type of order, including the relevant price and lot size.

8.3.2 You acknowledge and agree that, despite our best efforts, the price at which execution occurs may be materially different from the price specified in your order. This may result from sudden price movements in the underlying assets or other reasons that are beyond our control.

8.3.3 The Company shall have no liability for failure to execute Orders.

8.3.4 The Company shall have the right, but not the obligation, to reject any Order in whole or in part prior to execution or to cancel any order, where your Account contains Margin that is insufficient to support the entire Order or where such Order is illegal or otherwise improper.

8.4 Execution Policy

8.4.1 If there are no specific instructions from the Client on how to execute the Order, we will consider several execution factors to ensure that we manage the order on terms most favourable to our Client. These execution factors include:

- a. price;
- b. speed;
- c. likelihood of execution and settlement;
- d. costs;
- e. size and nature of the order;
- f. any other considerations relevant to the execution of the order.

8.4.2 It is emphasized that the specific instructions as mentioned above prevent the Company from taking the steps that it has designed and implemented in order to ensure the best possible result for the execution of those Orders in respect to the elements covered by those instructions. We do not consider the above list exhaustive and the order in which the above factors are presented shall not be taken as an indication of their priority.

8.4.3 The best possible result for our Clients will be determined in terms of the total consideration, represented primarily by the price of the financial instrument and the costs related to the execution. The costs related to the executions include the expenses incurred by the Client which are directly related to the execution of his/ her Order.

8.4.4 The other execution factors of speed, likelihood of execution, size, nature or any other relevant consideration will, in most cases, be secondary to the price and costs considerations, unless they would deliver the best possible result for the Client in terms of total consideration.

8.5 Cancellation/Withdrawal of Instructions

8.5.1 Non-market orders may be cancelled via the CAPITAL.COM Online Trading Platform but we can only cancel your instructions if you explicitly request so, provided that we have not acted up to the time of your request upon those instructions.

8.5.2 Executed instructions may only be withdrawn or amended by you with our consent.

8.5.3 The Company shall have no liability for any claims, losses, damages, costs or expenses, including legal fees, arising directly or indirectly out of the failure of such order to be cancelled.

8.6 Right not to Accept Orders

We may, at our sole discretion refuse to accept any Order or instruction from the Client or may accept the Client's Order subject to certain conditions or may refuse to proceed with an Order that the Company has accepted (including but not limited to situations where the Company is unable to execute the Client's Order due to restrictions with executing brokers or other third parties, trading venues or due to unusual market conditions). The Company will make all reasonable efforts to facilitate sales and to notify the Client in writing unless the Company is prevented from doing so by law.

8.7 Control of Orders Prior to Execution

8.7.1 We have the right (but not the obligation) to set limits and/or parameters to control your ability to place orders at our absolute discretion. Such limits and/or parameters may be amended, increased, decreased, removed or added by us at our absolute discretion and may include (without limitation):

- a. controls over maximum or minimum order amounts and maximum or minimum order sizes;
- b. controls over our total exposure to you;
- c. controls over prices at which orders may be submitted (to include, without limitation, controls over orders which are at a price which differs greatly from the market price at the time the order is submitted to the order book);
- d. controls over the Electronic Services (to include, without limitation, any verification procedures to ensure that any particular order or orders has come from you); and/or
- e. any other limits, parameters or controls which we may be required to implement in accordance with Applicable Regulations;
- f. the Client accepts that some small and micro cap shares that are traded on highly illiquid markets, or by way of an auction, or other non standard bidding process, may cause delays in executing Orders in such financial instruments. Therefore, the Online Trading Platform will process the Client's Order as soon as is reasonably possible and will not be liable for any loss of the Client in this regard;
- g. where we have reasonable grounds to believe that you have not acted in good faith, including but not limited to, whether willingly or not, abused our 'Negative Balance Protection' policy. This includes, but not limited to, hedging your exposure using multiple trading accounts, whether under the same name or in connection with another Client.

8.8 Trade Adjustments

8.8.1 Clients must be aware that CFD transactions carry a high degree of risk. The amount of initial Margin may be relatively small with regard to the value of the instrument so that transactions are 'leveraged' or 'geared'. A relatively small market movement may have a proportionately larger impact on the funds that the Client has deposited or will have to deposit. This may work against as well as for the Client.

8.8.2 The Company exclusively reserves the right to widen its variable spreads, adjust leverage and/or increase the Margin requirements without notice under certain market conditions including, but not limited to, when the CAPITAL.COM Trading desk is closed, around fundamental announcements, as a result of changes in credit markets and/or at times of extreme market volatility.

8.9 Execution of Orders

We shall reasonably endeavour to execute any order promptly, but in accepting your Orders we do not represent or warrant that it will be possible to execute such Order or that execution will be possible according to your instructions. If we encounter any material difficulty, relevant to the proper carrying out of an order on your behalf, we shall notify you promptly or as soon as we reasonably can.

We take all the appropriate measures to manage any possible conflict of interest that may arise in accordance with the provisions of our [Conflict of Interest Policy](#).

8.10 Hedging Mode

The Company offers its clients “Hedging Mode” trading. Hedging mode allows you to open opposite direction trades in the same market at the same time, to hedge any open positions without closing them and realising profits or losses.

Further details can be found on our Website [here](#).

8.11 Reporting Transactions and Account Statements

Confirmations for all Transactions that we have executed on your behalf on that trading day will be available on the mobile app and are updated online as each Transaction is executed.

Confirmation of execution and statements of your Account(s), in the absence of manifest error, shall be deemed correct, conclusive and binding upon you, if not objected to within three (3) business days by email, if orders were placed through the Online Trading Platform.

In cases where the prevailing market represents prices different from the prices posted online by the Company on the Website and the mobile app, the Company will attempt, on a best efforts basis and in good faith, to execute Market Orders on or close to the prevailing market prices. This may or may not adversely affect Client’s realised and unrealized gains and losses.

The Client might request to receive the Account statement monthly or quarterly via email, by providing such a request to the Client Support Department (support@capital.com).

8.12 Improper or Abusive Trading

8.12.1 The Company’s objective is to provide the most efficient trading liquidity available in the form of streaming, tradable prices for most of the financial instruments we offer on the CAPITAL.COM Online Trading Platform. As a result of the highly automated nature of the delivery of these streaming, tradable prices, you acknowledge and accept that price misquotations are likely to occur from time to time.

8.12.2 Should you execute transactions falling within the definition of Market Abuse or execute trading strategies with the objective of exploiting such misquotation(s) or acting in bad faith, including acting in any other way to abuse and/or gain any unfair advantages when using our Online Trading Platform or Services, the Company shall consider this as improper or abusive behaviour.

8.12.3 Should the Company determine, at its sole discretion and in good faith, that you are taking advantage, benefitting, attempting to take advantage or to benefit of such misquotation(s) or that you are committing any other improper or abusive trading, including but not limited to:

- a. fraud/illegal actions that led to the transaction;
- b. use of an automated data entry system, mass data entry system, any electronic devices, robots, high speed trading system, or any kind of software or program, or automated software algorithms which

might manipulate, alter, tamper with or otherwise abuse our Online Trading Platform or give you an unfair advantage when using our System or Services;

- c. orders placed based on manipulated prices as a result of system errors or system malfunctions, or transactions executed when the CAPITAL.COM Online Trading Platform indicates an anomalous price for underlying assets (e.g. the price which does not expressly correspond to the current market price for them);
- d. arbitrage trading on prices offered by our platform as a result of systems errors or any other arbitrage practices (including but not limited to latency abuse), price manipulation or time manipulation, including but not limited to that which aims to manipulate or take unfair advantage of the way in which we construct, provide or convey our bid or offer price;
- e. coordinated transactions in order to take advantage of systems, system errors and delays on systems updates, including but not limited to actions, coordinated between different clients, aimed at making profit (generating income) out of the application of such functions (opportunities) of the CAPITAL.COM Online Trading Platform as the Negative Balance Protection and the "Stop-loss order", as well as any other action(s), including those coordinated between different clients and/or acting in tandem with third party(-ies) aimed at making profit (generating income) from the application of functions (opportunities) of the CAPITAL.COM Online Trading Platform not in accordance with the purposes of such functions (opportunities); and/or carrying out "oppositely directed" ("mirror") Transactions (operations) (i.e. Long position and Short position) within one market or in relation to the same underlying asset, opened with insignificant time difference and/or difference in prices for underlying assets on one on the same device and/or from one and the same IP-address but with the use of different Accounts (created in the name of different persons and/or entities), including those aimed at making profit (generating income) from the application of functions (opportunities) of the CAPITAL.COM Online Trading Platform;
- f. orders placed with the use of inside information (i.e. abusive exploitation of privileged confidential information, the misuse of information or directors trading shares of their own companies);
- g. any other unfair, abusive, manipulative, or illegal way of using our Services or Platform;
- h. or use of any device, software, program, algorithm or any trading strategy that aims to manipulate, alter, tamper with or take unfair advantage of our Services or Platform,

then the Company will have the right to:

- i. adjust the price spreads available to you; and/or
- ii. restrict your access to streaming, instantly tradable quotes, including providing manual quotation only; and/or
- iii. obtain from your Account any historic trading profits that you have gained through such improper or abusive trading as determined by us at any time during our trading relationship; and/or
- iv. reject an order or to cancel a trade; and/or
- v. make any corrections or adjustments to your Account; and/or
- vi. immediately terminate our trading relationship, and/or
- vii. suspending the Client's account, including freezing of funds, as described in Clause 9.12; and/or
- viii. take any of the Enforcement Measures, provided in Clause 13.3.

8.12.4 Without prejudice to Cause 8.12.3, the Company may allow using the tools which are technically integrated into the platforms used by the Company for the provision of Electronic Services (specifically, but not limited to, the MT4 and MT5 platforms). However, the Company reserves the right to assess whether such use remains appropriate, not qualified as improper or abusing trading and does not violate these Terms and terms of use of the relevant platform. In case of any breaches, the Company is entitled to undertake the measures prescribed by these Terms, including Clause 8.12.3.

8.13 Market Data Classification

8.13.1 Where the Client is granted access to any market data price feeds via the Online Trading Platform, the Client shall be classified for market data purposes as a “Private Investor” only if the Client satisfies all of the conditions set out below.

A Client shall be classified as a “Private Investor” for market data purposes where, based on the information provided during the application process and any ongoing representations, the Client meets all of the following conditions:

- (a) the Client is a natural person acting in an individual and personal capacity;
- (b) the Client accesses and uses market data solely for personal investment activities and not for any commercial purpose, nor as a principal, officer, partner, employee or agent of any business, nor in connection with the professional management of any third party assets;
- (c) the Client is not a financial institution and is not registered with, or regulated by, any securities exchange, regulatory authority, or self-regulatory organisation;
- (d) the Client is not engaged in a financial services business and is not employed as a financial adviser in connection with the Client’s agreement and trading activities with the Company; and
- (e) the Client is not engaged in the business of accessing, aggregating, redistributing or otherwise furnishing market data to any third party.

The Client shall promptly notify the Company if it ceases to satisfy any of the above conditions.

The Company may, at its reasonable discretion, reclassify a Client for market data purposes if it determines that the Client no longer meets the criteria for classification as a Private Investor.

8.13.2 Market data is confidential and can not be redistributed to anyone or used for any other purposes other than for your own trading purposes, unless this is expressly permitted by the Company. All Market Data is available for you “as is”. We do not guarantee its accuracy and do not have any liability to you in regard to using the market data which is available for you.

8.14 Disabling and Cancelling Deposits

8.14.1 We have the right not to accept funds deposited by you and/or to cancel your deposits in the following circumstances:

- a. if you fail to provide the Company with any documents it requests from you either for Client identification purposes or for any other reason;
- b. if the Company suspects or has concerns that the submitted documents may be false or fraudulent;
- c. if the Company suspects you are involved in illegal or fraudulent activity;
- d. if the Company is informed that your credit or debit card (or any other payment method used) has been lost or stolen;
- e. where the Company considers that there is a chargeback risk; and/or
- f. when you deposit fifteen thousand (15,000) USD or more (or an equivalent of the same in one of our Base Currencies) or if you make over ten (10) separate deposits to your Accounts and the Company is unable to verify your credit or debit card details or is unable to verify any other payment method used.

8.14.2 In case of cancelled deposits, and if it is not a confiscation of your funds by a supervisory authority on the grounds of money laundering suspicion or for any other legal infringement, your funds will be returned only to the bank account that they have been initially received from.

8.15 Performance and Settlement of Transactions

8.15.1 You will promptly deliver any instructions, money or documents deliverable by you under a

Transaction in accordance with that Transaction as modified by any instructions given by us.

8.15.2 The Company shall proceed to a settlement of all Transactions upon execution of such transactions.

8.15.3 Following execution of the order, we will send you an electronic confirmation in respect of that Transaction as soon as reasonably practicable, and in any event within the time required by the relevant laws and regulations.

8.15.4 In cases of technical or human errors during a Transaction resulting in crediting unsolicited funds to your trading or banking account or other payment method you agree that the erroneous Transaction will be void from the outset and you will be liable to return to us any erroneously transferred funds according to Clause 18.4.3.

8.15.5 At its sole reasonable discretion, CAPITAL.COM may temporarily introduce or amend the minimum or maximum size of any Order in any Investment (CFD) and will try to provide the Client with the possibility to close the entire investment, which was affected. Notification of any such restrictions beforehand is mandatory.

8.16 Consent

You consent to receive all Account information, Trade Confirmations and Account Statements through a durable medium.

If you no longer wish to receive such information through electronic means, you must notify us and revoke this consent in writing. However, if you revoke your consent, your access to our Online Trading Platform may be restricted or terminated at our sole discretion.

8.17 Position Limits

We may require you to limit the number of open positions which you may have with us at any time, and we may in our sole discretion close out any one or more Transactions in order to ensure that such position limits are maintained.

8.18 Withdrawals

Without prejudice and subject to these Terms and all Applicable Laws and Regulations funds may be withdrawn by you from your Account once your withdrawal request is processed and approved, provided that such funds are not being utilised for margin purposes or have otherwise become owing to us, there is a remaining positive balance on your Account and the Account is approved following the verification of the Client as per the applicable Anti-Money Laundering Laws and Regulations governing the Company.

Your withdrawal request will be processed by us and sent to the same bank, credit card or other source for execution owned by you. No Account withdrawals to third parties will be processed by the Company.

If you request a withdrawal of funds from your Account and we cannot comply with it without closing some part of your open positions, we will not comply with the request until sufficient positions are closed, and we have established that you have a positive balance on your Account to make the withdrawal.

The Client shall have the right to withdraw money from the Client's Account up to the amount of the free money available in his account.

Payments to third parties from the Client's Account will not be allowed. Bank deposits from third parties to the Client's Account shall not be accepted either. The Client shall have the right to transfer money to CAPITAL.COM bank accounts only after accepting the Terms and Conditions with CAPITAL.COM and receiving a username and password.

8.19 Inactive Account

8.19.1 The Client acknowledges and confirms that any Account(s) holding funds or not holding any funds, opened by him/her with the Company where the Client has neither open nor closed positions and does not have an active open position for a period of one (1) year or more, shall be classified by the Company as an inactive account ("Inactive Account"). The Company reserves the right to close Inactive Accounts at its sole discretion. In this case all the remaining funds held on the Inactive Account will be refunded to the payment method used for depositing.

8.19.2 The Company shall not be responsible for inability to return the Client funds in case specified under Clause 8.19.1 of these Terms the inability is resulted from the circumstances which are beyond the Company's control.

8.19.3 Any Account that is not an Inactive Account shall be classified by the Company as an active account ("Active Account").

8.20 Negative Balance Protection

CFDs are leveraged products and therefore incur a high level of risk and may result in the loss of all the Client's invested capital. For the benefit of the Company's Clients, the Company has implemented a "no negative balance" protection program, on an account basis, whereby the Client cannot lose more than his/her investment in accordance with Article 29 of the Rules. Nonetheless, the Client is expected to actively monitor and manage open positions in the account and to contact the Company about options if the account is close to a Margin Call.

It is possible for adverse market movements to result in the loss of more than your Account balance, so that it becomes negative. In this case, we will bear the negative consequences of such adverse events and any of your losses will be limited to your Account balance.

Any trading strategy based on the use of the Negative Balance Protection mechanism and creating unfair advantages to the Client can be considered as improper or abusive behaviour, which will grant us an absolute right to suspend the trading account, terminate this Agreement or take other enforcement measures in accordance with the provisions of Clause 13.3 and Clause 9.12 of these Terms.

For the Clients categorized other than Retail Client, the Negative Balance Protection may not apply. When you have a negative balance on your Account, you may not be able to open new Accounts, unless the negative balance is eliminated.

8.21 Corporate Events

8.21.1 The Client has no rights or obligations in respect of the underlying instruments or assets relating to his/her CFD. Specifically, in case of an equity CFD the Client will not receive any voting rights. However, the underlying instrument can be affected by various corporate actions (hereinafter "Corporate Events"). A "Corporate Event" is any action or event, whether temporary or otherwise, in relation to an underlying asset(s) of the CFD, or in relation to the issuer of the underlying asset(s) of the CFD, which would have an effect on the value, legal characteristics or ability to trade the underlying asset(s) or the CFD based on or referencing such underlying asset(s), including but not limited to: distributions or the grant of

entitlements to existing holders of rights in the underlying asset(s), dividend payments, the granting of rights to purchase, subscribe or receive any underlying asset(s) (whether for free, on preferential payment terms or otherwise) or cash, placings, rights issues, bonus/scrip issues, capitalization issues and similar issues, mergers or takeovers relating to the issuer of the underlying asset(s), sub-divisions, splits, reductions (including share buy-backs), consolidations, reclassifications, restructurings, cancellation or suspension of listing of the underlying asset(s) or the issuer of the underlying asset(s), and any action or event analogous to any of the foregoing or otherwise that may have a dilution or concentration effect on the value of the underlying asset(s) of the CFD.

8.21.2 In case a Corporate Event will occur while the Client is holding an open CFD position or has a pending order affected by such event, we will endeavour to notify the Client of such Corporate Event, accomplished or yet to occur, as soon as it is reasonably practicable, however the Company reserves the right to act without prior notifications. Corporate Events can be amended, withdrawn or cancelled at any time. These changes are beyond the control of the Company, who is not responsible for any loss of the Client in this regard. According to the type of Corporate Event, the Company will inform the Client of the action(s)/adjustment(s) to be taken, if any, including the possibility of closing the affected position(s), including any pending order(s).

In relation to the above, depending on the type of Corporate event, the Company may be required to make an adjustment to the size and/or value and/or number of the related position(s), including also the possibility of opening the new position(s) or closing of the existing position(s) at the last available price. Such adjustment will account for the diluting or concentrating effect of the Corporate Event in order to preserve the economic equivalent of the rights and obligations of the parties in relation to that position(s). Any action taken by the Company will be effective from the date determined by the Company and shall be binding, however, for the avoidance of doubt, the said actions may be retrospective. Closing of Client's CFD position(s) affected by a Corporate Event will not take place in case of dividend payments related to underlying equities. In this case adjustments will be made to the Client's Account, such adjustment will be calculated by the Company based on the size of the dividend, the size of Client's position, taxation and whether it is a buy or a sell trade. For more details please see Clause 5.16 herein.

8.22. Product or instrument termination

We may require you to close any of your positions which you may have with us and which may be or have been affected by product or instrument termination due to, no price provider or any relevant reason which is determined by the Company, or we may close any of such positions at last available prices without prior notification at our sole discretion.

8.23. Expiring CFDs

Certain CFDs shall have an expiry date. On the expiry date, an open position on the expiring CFD will be closed automatically at the then prevailing or last available market price. Weekend FX CFDs have a settlement price as defined in the relevant documents. Any affected pending order(s) will be cancelled. Nothing precludes the Client from closing the relevant position and cancelling the affected pending orders prior to the expiry date.

The expiry date for the relevant CFD shall be published on the relevant section of the Company's website and on the mobile app.

8.24. Circumstances under which the CFD may mature or be terminated

- a. The CFD will end with the closing of the Client's position;
- b. The Client's position may be closed by the Client at any time during the trading hours indicated on CAPITAL.COM Online Trading Platform;

- c. The Client's position may be closed at the initiative of the counterparty when there is excessive usage of the margin or the position's margin falls below required minimum as set by the counterparty to protect the Client from the accumulation of large losses that would be expressed in a negative account balance;
- d. The Client's position(s) may be closed at the initiative of the counterparty in the case that an underlying asset of the CFD is no longer trading;
- e. The Client's position(s) may be closed by the Company in the case a financial instrument is no longer offered on our Online Trading Platform;
- f. The Client's position may be closed at the maturity of an underlying asset (for instance with CFDs on Futures and Commodities);
- g. The Client's position may be closed at the initiative of the counterparty in the case that changes to the liquidity of the instrument in the market mean that risk cannot be properly hedged;
- h. The Client's position may be closed in case the Client initiated a chargeback case against the Company;
- i. The Company may terminate a client's position at its sole discretion;
- j. Under any terms and conditions mentioned in these Terms.

In addition, you understand in regard to trading with CFDs over cryptocurrencies that we may at own discretion close your positions and pending Orders when:

- a. Underlying cryptocurrencies are delisted or removed from trading at any cryptoexchange where the underlying cryptocurrencies are listed (traded), or we have consideration that such circumstances are to be occurred likely;
- b. When the Crypto Event (as defined in Clause 19.2.3 of these Terms) occurs in respect of the underlying cryptocurrencies. Please refer to Clause 19.2.3 of these Terms for more details;
- c. Underlying cryptocurrencies are no longer supported as underlying assets for CFDs by us for any other reasons.

PART 10. CLIENT MONEY

10.1 Client Money

10.1.1 We treat all funds received from you or held by us on your behalf (hereinafter “**Client Money**”) in accordance with the requirements of the Client Money Rules. Client Money is treated as client money and held on a segregated basis while it is maintained in designated Client Money Accounts in accordance with the Client Money Rules.

10.1.2 Notwithstanding any other provisions of these Terms, the Company may transfer a portion of Client Money funds attributable to client positions from designated Client Money Accounts to third-party counterparties (including liquidity providers) solely for the purpose of margin obligations in regard to opening, maintaining, settling and closing positions that the Company may hold.

Client withdrawal rights in respect of funds remaining held as Client Money are not suspended, limited, or otherwise adversely affected by the operation of this clause, save as may be required to comply with applicable margining, close-out, settlement, or other operational processes set out in this Agreement and Applicable Laws and Regulations.

The Company remains responsible for meeting its obligations to clients in accordance with this Agreement and Applicable Laws and Regulations notwithstanding any such transfer, and the arrangement may be suspended or withdrawn immediately in order to comply with any legal, regulatory, or supervisory direction of the Commission.

10.1.3 The Company may hold Clients' funds in omnibus accounts with third-party financial and credit institutions. An omnibus account means that your funds will be kept in a pooled account with money belonging to other clients in a segregated account. Accordingly, the Client is warned that there is a link of loss emanating from the use of omnibus accounts in financial or credit institutions. In general, in case of default or insolvency of the Company, no single client will have a claim against a specific sum in a specific account. Omnibus accounts may also hold other types of risks including legal, haircut risk, liquidation risk, counterparty risk and others. By accepting the Terms and by establishing a business relationship with us, you expressly provide your consent for maintaining your funds in an omnibus account.

10.1.4 The Company may deposit money received from Clients, excluding amounts transferred to counterparties pursuant to Clause 10.1.2, into segregated accounts with credit institutions with fixed terms or notice periods of up to 95 days, provided that such deposits remain compliant with the Client Money

Rules and do not, in the ordinary course of business, restrict Clients' withdrawal rights.

The placement of Client Money in such fixed term or notice accounts does not otherwise affect your ability to deal with or withdraw your funds. However, in exceptional circumstances, a longer fixed term or notice period may result in a delay in returning some or all of your money until the expiry of the relevant fixed term or notice period.

10.2 Interest

You, the Client, acknowledge and confirm that no interest shall be paid or credited to you (including any interest received on client funds deposited into accounts with fixed terms or notice periods under Clause 10.1.3) will be received on the balance of your Account or on any Client Money held.

10.3 Overseas Bank

10.3.1 The Company retains the right to hold Client Funds on your behalf with a bank holding an unrestricted license under the Banks and Trust Companies Regulation Act (Ch. 316) or other deposit-taking institution outside The Bahamas as may be approved by the Commission for this purpose, in accordance with Article 88(2) SIR.

10.3.2 Client Money deposited may be kept in one or more omnibus accounts with any authorised credit institution used to accept funds, as determined by the Company from time to time, and will be held in the Company's name for the benefit of Clients.

10.3.3 We will not be liable for the insolvency, acts or omissions of any financial and credit institution or other third party referred to in this Part, except to the extent required by Applicable Laws and Regulations.

10.4 Due Care, Skill and Diligence

10.4.1 With regards to the deposit of Client Money, where we do not deposit Client Money with a central bank, we exercise all due care, skill and diligence in the selection, appointment and periodic review of the credit institutions and banks where the funds are placed and in the arrangement for the holding and safeguarding of those funds.

10.4.2 It shall be noted that we take into account the expertise and reputation of the third party, its regulatory status, as well as the legal requirements or market practices related to the holding of those financial instruments that could adversely affect our Clients' rights.

10.5 Payment Service Providers and Electronic Money Institutions

The Company may maintain merchant or client collection accounts in its own name with payment service providers and Electronic Money Institutions (together, "**PSPs and EMIs**"), solely for the purpose of facilitating client deposits and withdrawals. Client funds held with PSPs and EMIs are held exclusively for payment processing purposes, remain beneficially owned by clients at all times, and are subject to the applicable statutory safeguarding requirements under the relevant payment services and e-money regulatory regimes. Such client funds are not treated as Client Money for the purposes of margin or hedging, are not used for hedging or any other trading-related purpose, and are not made available to meet the Company's obligations to counterparties.

PSPs are not used as primary or long-term client money holding locations, and client funds held with PSPs are transferred to segregated client money accounts with credit institutions as soon as reasonably practicable.

10.6 Diversification of Risks

We shall ensure, where deemed necessary, the diversification of the Clients' financial instruments and funds, including through the maintenance of accounts with multiple credit institutions, in order to reduce concentration and counterparty risk.

10.7 Omnibus Account Risk

10.7.1 The Company may hold client funds in omnibus accounts within third party financial and credit institutions. In this respect, the Client is warned that there is a risk of loss emanating from the use of omnibus accounts in financial or credit institutions. In such cases it may not be possible to distinguish if the particular Client funds are held by a certain financial or credit institution. Omnibus accounts may also hold other types of risks including legal, liquidation risk, haircut risk, third party risk, etc.

10.7.2 In the event of insolvency or any other analogous proceedings in relation to a financial or credit institution where client funds are held, the Company (on behalf of the Client) and/or the Client may only have an unsecured claim against the financial or credit institution. The Client will be exposed to the risk that the money received by the Company from the financial or credit institution is insufficient to satisfy all client claims. Any resulting shortfall would be shared proportionately among affected clients. To mitigate this risk, Client Money is held with a limited number of reputable financial or credit institutions, and ongoing exposure and concentration monitoring is conducted.

10.8 Unclaimed Client Money

You agree that we may cease to treat your money as Client Money if there has been no movement on your balance for 6 years, subject to compliance with Applicable Laws and Regulations. We shall write to you at your last known address informing you of our intention of no longer treating your balance as Client Money and giving you twenty-eight (28) Business Days to make a claim.

10.9 Liability and Indemnity

10.9.1 You agree that we shall not be liable for any default of any counterparty, bank, or other third party in which we hold Client Money, except where liability arises under Applicable Laws and Regulations.

10.9.2 The Company will not be liable for loss suffered by you in connection to your funds held by us, unless such loss directly arises from our gross negligence, willful default or fraud.

PART 11. MARGINING ARRANGEMENTS

11.1 Contingent Liability

11.1.1 When we effect a Transaction, you should note that, depending upon the nature of the Transaction, you may be liable to make further payments when the Transaction fails to be completed or upon the earlier settlement or closing out of your position.

11.1.2 The Client shall provide and maintain Margin in accordance with the terms of this Agreement to secure Client's obligations to the Company. The Company must maintain at all times the minimum Margin requirements for the open positions in Client's Account.

11.1.3 You may be required to make further variable payments by way of Margin against the purchase price of the CFD, instead of paying (or receiving) the whole purchase (or sale) price immediately.

11.1.4 The movement in the market price of the CFD will affect the amount of Margin payment you will be required to make.

11.1.5 We will constantly monitor your Margin requirements and we will inform you as soon as it is reasonably practicable of the amount of any Margin payment required under this Part.

11.1.6 The Margin value for each position is calculated in accordance with the formula below:

Margin = (Volume * Underlying Instrument Price) / Leverage

Margin fluctuates with the changes in price of the underlying asset.

11.2 Margin Call

11.2.1 A Margin Call takes place when the client's Margin Level is at or below 100% and the Company sends its client a notification that he/she needs to either delete pending orders to free up margin, or close some positions, or deposit more funds in his/her account to maintain the relevant positions open.

11.2.2 You agree to pay us on demand such sums by way of Margin as are required from time to time as we may in our discretion reasonably require for the purpose of protecting ourselves against loss or risk of loss on present, future or contemplated Transactions under these Terms.

11.3 Failure to Meet Margin Call

In the event that you fail to meet a margin call, we may immediately close out any of the relevant positions, as well as any pending orders that may negatively affect your margin balance once executed.

11.4 Close Out

11.4.1 A Close Out takes place when the client's Margin Level is at or below 50%, and the Company decides to exercise its right to liquidate client's open positions on a gradual basis subject to clause 11.4.2 below.

If a sudden market movement causes the Margin Level to drop from above 100% to below 50% the Company may liquidate the client's open positions without sending a notification to the client that his/her Margin Level is at or below 100%.

11.4.2 Execution of Close Out

If Margin Level has reached 50% and the Client has several open positions, the Company closes the Client's positions at the current market price in the following order:

- a. all pending orders are cancelled;
- b. if the Margin Level is still below 50%, then all open positions with the negative financial result on open markets are closed;
- c. if the Margin Level is still below 50%, then all remaining positions on open markets are closed;
- d. if the Margin Level is still below 50%, then everything else is closed, as soon as the markets open, including hedged positions.

11.5 Form of Margin

Margin must be paid in cash in a Base Currency of your Account. All Margin paid to the Company is treated as Client Money and held on a segregated basis in accordance with the Client Money Rules and

Part 10 of these Terms. Margin deposits shall be made by wire transfer, credit card or by such other means as the Company may direct.

Margin may be operationally utilised for hedging purposes only in accordance with Part 10 and subject to any prior regulatory approval required from the Commission. Such utilisation does not constitute a transfer of ownership, title transfer, or any recharacterisation of Client Money, and all such funds remain Client Money at all times.

For the avoidance of doubt, a cash Margin paid to us is held as Client Money in accordance with the requirements of the Client Money Rules.

11.6 Set-off on Default

If there is an Event of Default or these Terms are terminated, we shall set-off the balance of the cash margin owed by us to you against your obligations to us (as reasonably valued by us). The net amount, if any, payable between us following such set-off, shall take into account the Liquidation Amount payable under Part 15 ("Netting").

11.7 Further Assurance

You agree to execute such further documents and to take such further steps as we may reasonably require to perfect any permitted security interest over and obtain legal title to the Secured Obligations, provided that nothing in this clause shall be construed as effecting a transfer of ownership of Client Money to the Company.

11.8 Negative Pledge

You undertake neither to create nor to have outstanding any security interest whatsoever over, nor to agree to assign or transfer, any of the cash margin transferred to us, other than as expressly permitted under these Terms and the Applicable Laws and Regulations.

11.9 General Lien

In addition, and without prejudice to any rights to which we may be entitled under these Terms or any Applicable Laws and Regulations, we shall have a general lien on all cash held by us or our Associates or our nominees on your behalf until the satisfaction of the Secured Obligation, subject always to the Client Money Rules and the continued classification of such cash as Client Money.

PART 12. LEVERAGE ARRANGEMENTS

12.1 Trading on CFDs is a form of leveraged trading and is highly speculative, complex and involves a significant risk of loss and is not suitable for all investors. CFDs are among the riskiest types of investments and can result in large losses.

12.2 Clients must be aware that CFD transactions carry a high degree of risk. The amount of initial margin may be relatively small with regard to the value of the instrument so that transactions are 'leveraged' or 'geared'. A relatively small market movement may have a proportionately larger impact on the funds that the Client has deposited or will have to deposit. This may work against as well as for the Client.

12.3 The leverage limit applied on the opening positions of CFDs shall be set depending on the Client's category. Leverage limits on the opening of a position by a Retail client for all underlying assets, except digital assets (i.e. Cryptocurrencies), shall be up to 1:200 in accordance with Article 23 of the Rules.

12.4 Leverage limits on the opening of a position by a Retail client for a digital asset as an underlying asset (ie Cryptocurrencies), shall be 1:20 in accordance with Article 23 of the Rules.

12.5 Clause 12.4 and 12.5 above do not apply for clients categorised as Professional in accordance with Article 24 of the Rules.

12.6 The Company is entitled to set/change the leverage limit for a specific financial instrument at its absolute discretion, but only up to the value determined by the Rules depending on the Client category.

PART 13. REPRESENTATIONS, WARRANTIES AND COVENANT

13.1 Representations & Warranties

13.2.1 You covenant to us that:

- a. You will promptly notify us of the occurrence of any Event of Default or Potential Event of Default with respect to yourself;
- b. You will promptly notify the Company of any change in circumstances that may affect your classification for market data purposes, including whether you continue to meet the criteria for Private Investor classification pursuant to Clause 8.13;

15.1 Rights on Default

On the occurrence of an Event of Default, we may exercise our rights under this Part and Part 16, except that in the case of the occurrence of an Event of Default specified in Clause 14.1 (f) (a "Bankruptcy Default"), the automatic termination provision of this Clause shall apply.

15.2 Liquidation Date

Subject to the following Clause 15.3, at any time following the occurrence of an Event of Default, we may, by notice to you, specify a date (the "Liquidation Date") for the termination and liquidation of Transactions in accordance with this Part.

15.3 Automatic Termination

The date of the occurrence of any Bankruptcy Default shall automatically constitute a Liquidation Date, without the need for any notice by us and the provisions of the following Clause 15.4 shall then apply.

15.4 Calculation of the Liquidation Amount

15.4.1 Upon the occurrence of the Liquidation Date:

- a. neither of us shall be obliged to make any further payments or deliveries under any Transactions which would, but for this Part, have fallen due for performance on or after the Liquidation Date and such obligations shall be satisfied by settlement (whether by payment, set-off or otherwise) of Liquidation Amount (as defined below);
- b. we shall (on, or as soon as reasonably practicable after, the Liquidation Date) determine (discounting if appropriate), in respect of each Transaction a total cost, loss or, as the case may be, gain, in each case expressed in the Base Currency of your Accounts (and, if appropriate, including any loss of bargain, cost of funding or, without duplication, cost, loss or, as the case may be, gain as a result of the termination, liquidation, obtaining, performing or re-establishing of any hedge or related trading position) as a result of the termination, pursuant to these Terms, of each payment or delivery which would otherwise have been required to be made under such Transaction (assuming satisfaction of each applicable condition precedent and having due regard, if appropriate, to such market quotations published on, or official settlement prices set by the relevant exchange as may be available on, or immediately preceding, the date of calculation); and
- c. we shall treat each cost or loss to us, determined as above, as a positive amount and each gain by us, so determined, as a negative amount and aggregate all of such amounts to produce a single, net positive or negative amount, denominated in the Base Currency of your Account (the "Liquidation Amount").

15.5 Payer

If the Liquidation Amount determined pursuant to this Part is a positive amount, you shall pay it to us and if it is a negative amount, we shall pay it to you. We shall notify you of the Liquidation Amount, and by whom it is payable, immediately after the calculation of such amount.

15.6 Other Transactions

Where termination and liquidation occur in accordance with this Part, we shall also be entitled, at our discretion, to terminate and liquidate, in accordance with the provisions of this Part, any other transactions entered into between us which are then outstanding.

15.7 Payment

The Liquidation Amount shall be paid in the Base Currency of your Account by the close of business on the Business Day following the completion of the termination and liquidation under this Part (converted as required by applicable law into any other currency, any costs of such conversion to be borne by you, and (if applicable) deducted from any payment to you).

Unless a Liquidation Date has occurred or has been effectively set, we shall not be obliged to make any payment or delivery scheduled to be made by us under a Transaction for as long as an Event of Default or any event which may become (with the passage of time, the giving of notice, the making of any

determination hereunder, or any combination thereof) an Event of Default with respect to you has occurred and is continuing.

15.8 Additional Rights

Our rights under this Part shall be in addition to, and not in limitation or exclusion of, any other rights which we may have (whether by agreement, operation of law or otherwise).

15.9 Application of Netting to the Transactions

This Part applies to each Transaction entered into or outstanding between us on or after the date these Terms take effect.

15.10 Single Agreement

These Terms, the particular terms applicable to each Transaction entered into under these Terms, and all amendments to any of them shall together constitute a single agreement between us. Both parties acknowledge that all Transactions entered into on or after the date these Terms take effect, are entered into in reliance upon the fact that these Terms and all such provisions constitute a single agreement between us.

PART 16. RIGHTS ON DEFAULT

16.1 Default

Annex 1 - Swap-Free Account Terms and Conditions

1. These Swap-Free Account Terms and Conditions (hereinafter referred to as the Terms) are a supplementary and integral part of the Agreement with clients on conducting operations involving non-deliverable over-the-counter (OTC) financial instruments (CFDs Transactions) concluded between Company and the Client, and they govern the terms and conditions of using a Swap-Free account.

These Terms supplement and modify the Agreement. The provisions of these Terms supersede the provisions of the Agreement only to the extent that the provisions of these Terms and the Agreement expressly conflict. Nothing in these Terms should be interpreted as invalidating the Agreement, the provisions of which will continue to govern the relationship between the Parties insofar as they do not expressly conflict with these Terms. In case of a contradiction between these Terms and the Agreement, the Terms shall prevail. For these Terms, definitions and expressions shall have the meanings given to them as defined in the Agreement, unless the context otherwise requires.

2. By applying for a Swap-Free account, the Client explicitly expresses his/her approval and acceptance of these Terms.

3. A Swap-Free account is designed and offered by the Company to its Clients who can not use a regular account owing to their religion, faith, or beliefs.

4. A Swap-Free account is an account with the following special conditions being applied:

4.1. No overnight commission (also known as “swap”) is applied. If the Client holds a position open overnight, the overnight commission is not deducted from or added to the Client’s deposit;

4.2. The spread size in a Swap-Free account may differ from the spread size in a regular account.

5. The Client can have only one type of account: a regular account or a Swap-Free account. For existing Clients, it is necessary to close the existing regular account before opening a Swap-Free account. Before closure of a regular account, the Client should make sure that a Swap-Free account is available for him/her by contacting the Company via any appropriate means of communication.

6. Pursuant to Section 3 of these Terms, the Company reserves the right to require an adequate justification for and/or proof of the necessity or need of opening a Swap-Free account, including provision of proof of faith.

7. A Swap-Free account may be subject to restriction in respect to the Client’s place of birth, nationality and/or country of residence as well as to other restrictions, which may be imposed by the Company from time to time, at its sole discretion.

8. A Swap-Free account is subject to regular comprehensive checks and monitoring to detect any improper/abusive activities prohibited by these Terms or by the Agreement.

9. It is strictly prohibited to apply for a Swap-Free account and/or use such an account if the primary reason for this is taking advantage of not paying overnight commission inherent in a regular account. Should the Company determine, at its sole discretion and in good faith, the violation of this rule, the Company shall be entitled to:

(i) suspend or block the account (suspend and/or terminate the provision of the Services under the Agreement);

(ii) terminate the Agreement (unilaterally and extrajudicially refuse to perform the Agreement);

(iii) take any other measure(s), provided in Section 9.3 and/or other sections of the Agreement for the Client’s violation of the terms of the Agreement. In addition, should the Company determine, at its sole discretion and in good faith, that a Swap-Free account is used in bad faith, the

Company shall be entitled to apply retrospectively all the overnight commissions that were previously omitted.

10. The Company reserves the right to close a Swap-Free account and/or refuse to open such an account at any time, at its sole discretion, with or without reason, without being obliged to provide any explanation or justification.
