VI. Compensation of Covered Clients and Payment Procedures

The Funds initiates the compensation payment procedure when at least one of the following preconditions is fulfilled:

- The Commission has determined that the Company, which is subscribed to the Fund, is unable, at the time, to meet such of its duties as arise from its investor-clients' claims for reasons that are directly related to its financial circumstances and in respect of which there is no foreseeable prospect of improvement in the near future; or

The procedure for the submission of the relevant applications, the deadline and their content will be designated in the invitation.

The Commission shall issue its decision for the initiation of the compensation payment procedure by the Fund within a reasonable time, and publish the relevant information on its website.

The amount of compensation payable to each covered client is calculated in accordance with the legal and contractual terms governing the relation of the covered client with the Company, subject to the setoff rules applied for the calculation of the claims between the covered and the Company. The calculation of the payable compensation derives from the sum of total established claims of the covered client against the Company, arising from all covered services provided by the Company and regardless of the number of accounts of which the client is a beneficiary, the currency and place of provision of these services.

The maximum compensation payable amount of cover is either the 90% of the cumulative covered claims of the covered investor, or the amount of €20.000, whichever is lower.

In case of a joint investment business:

- a. In the calculation of the covered amount noted above, the share that corresponds to each covered investor is taken into account;
- b. Claims are allocated equally among the investors unless specific provisions apply, and subject to the exception of point c below, each investor is entitled to separate coverage up to the limit above; and
- c. The claims relating to joint investment business, to which two or more persons are entitled as members of a business partnership, association or grouping of a similar nature which has no legal personality, may, for the purpose of calculating the limits of compensation, be aggregated and treated as if arising from an investment made by a single investor.
